The 7th IEEE Workshop on Spoken Language Technology (SLT) will be held on 18-21 December 2018 in Athens, Greece. The theme for this year will be “**Spoken Language Technology in the Era of Deep Learning: Challenges and Opportunities**”. The program for SLT 2018 will include oral and posters sessions, keynotes, plus invited speakers in the field of spoken language as well as tutorials and multiple special sessions.

Topics

We invite submissions from the wider area of spoken language technology, with emphasis on the following topics:

- ◆ Speech recognition & synthesis
- ◆ Spoken language understanding
- ◆ Spoken document retrieval
- ◆ Question answering from speech
- ◆ Assistive technologies
- ◆ Natural language processing
- ◆ Evaluation methodologies
- ◆ Multimodal processing
- ◆ Human/computer interaction
- ◆ Spoken dialog systems
- ◆ Speech data mining
- ◆ Spoken document summarization
- ◆ Spoken language corpora
- ◆ Speaker/language recognition

Venue

Athens is a historic city and the capital of Greece, located in the south-east part of the Mediterranean Sea. The emblematic city of democracy provides for amazing sightseeing, great food tastings and endless strolls and shopping in the buzzing festive capital.
